DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions required under 35 U.S.C 121:
 - I. Claims 1-6 and 17-23, drawn to a first process, second process and a digital license, classified in class 726, subclass 2 and 26-33.
 - II. Claims 7-16, drawn to a method for developing a first process and second process on which to proxy execute the said first process, classified in class 717, subclass 100.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination II has separate utility such as the specification of a "method of developing source code for the first process ... compiling source code into machine code ... post compiling the machine code." See MPEP 806.05(d).
